Differentiation

CONTENTS:

Vol 2 no 1 February 1974

page

Editorial 1

Original papers:

R. BERTOLOTTI & MARY C. WEISS
Expression of differentiated functions in heptoma cell hybrids v. re-expression of aldolase B *in vitro* and *in vivo* 5

J. M. KELLER & M. NAMEROFF
Induction of creatine phosphokinase in cultures of chick skeletal myoblasts without concomitant cell fusion 19

SARA E. ZALIK & E. J. SANDERS
Selective cellular affinities in the unincubated chick blastoderm 25

M. K. AGARWAL
Morphofunctional differentiation in the liver
2. Modification of the total regenerative response by selected reticuloendothelial active agents 29

S. HOLTZER, M. BARANY & H. HOLTZER
Protein-bound ADP in myogenic and chondrogenic cells 39

R. W. LONGTON, J. S. COLE, 111 & R. GRAYS
Reculture of electrofocused foetal rabbit skin cells 43

K. A. BISSET
The initiation of fruiting body formation in *Myxococcus fulvus* 47

Reviews:

G. V. SHERBET & M. S. LAKSHMI
Follicle stimulating hormone and the differentiation of neural tissue 51

page

Original papers

G. C. KARP, C. MANES & W. E. HAHN
Ribosome production and protein synthesis in the preimplantation rabbit embryo 65

F. HANOCQ, A. DE. SCHUTTER, E. HUBERT & J. BRACHET
Cytochemical and biochemical studies on progesterone-induced maturation in amphibian oocytes
2. DNA synthesis 75

V. IDOYAGA-VARGAS & T. YAMADA
Glucosaminidase and dedifferentiation of newt iris epithelium 91

P. ATHIAS, MONIQUE SENSENBRENNER & P. MANDEL
The behaviour of dissociated chick embryo brain cells in long-term cultures in presence and absence of brain extracts 99

N. VUJANOVIC, R. KINSKY, H. T. DUC, J. VOISIN & G. A. VOISIN
Morphological differences between thymus- and bone marrow-derived lymphocytes
1. A light microscopic and experimental study in unstimulated mice 107

BEATRIZ G. T. POGO & JEAN R. KATZ
Early events in lymphocyte transformation by phytohaemagglutinin
2. Synthesis and phosphorylation of nuclear proteins 119

Models & hypotheses:

I. M. SHAPIRO, G. G. GAUSE JR & A. F. ZAKHAROV
A model of the mechanism regulating the timing of chromosome replication in eucaryotic cells 125

Book reviews

J-P. CÉSARINI
Tissue interactions in carcinogenisis 128

Vol 2 no 3 June 1974

page

Original papers:

S. JACOBELLI, J. HANOCQ, E. BALTUS, & J. BRACHET
Hormone-induced maturation of *Xenopus laevis* oocytes: effects of different steroids and study of the properties of a progesterone receptor 129

E. ANTILA & T. TERÄVÄINEN
Metabolism of exogenous 4-^{14}C-progesterone during early development of *Xenopus laevis* 137

M. S. GOLBUS & C. J. EPSTEIN
Effect of 5-bromodeoxyuridine on preimplantation mouse embryo development 143

H. H. EPPERLEIN
The Ectomesenchymal-Endodermal Interaction-System (EEIS) of *Triturus alpestris* in tissue culture
1. Observations on attachment, migration and differentiation of neural crest cells 151

T. UMIEL & A. GLOBERSON
Analysis of lymphoid cell types developing in mouse foetal liver 169

O. A. SCHJEIDE, R. PRINCE, T. NICHOLLS & B. WANAMACHER
Chemical and enzymatic changes in microsomes of chicken livers following stimulation by oestrogens 179

Vol 2 no 4 August 1974

Original papers:

page

C. MICHEL & T. YAMADA
Cellular studies of X-ray induced inhibition of lens regeneration 193

R. P. ERICKSON, C. J. BETLACH & C. J. EPSTEIN
Ribonucleic acid and protein metabolism of t^{12}/t^{12} embryos and T/t^{12} spermatozoa 203

J. V. RUCH, M. FABRE, V. KARCHER-DJURICIC & A. STAUBLI
The effects of L-azetidine-2-carboxylic acid (analogue of proline) on dental cytodifferentiations *in vitro* 211

C. BONA
in vitro cytodifferentiation of human blood lymphocytes 221

J. LINDGREN, A. VAHERE & E. RUOSLAHTI
Identification and isolation of a foetoprotein in the chicken 233

A. L. HARVEY & W. F. DRYDEN
The development and distribution of cholinesterases in cultured skeletal muscle with and without nerve 237

R. R. COWDEN
Fluorescence cytochemical studies on oocyte growth in *Chiton tuberculatum*, with special emphasis on protein end-group methods 249

Vol 2 no 5 October 1974

page

Original papers:

R. D. BARNES, MAUREEN TUFFREY, LINDA DRURY & D. CATTY
Unequal rates of cell proliferation in tetraparental mouse chimaeras derived by fusion of early embryos 257

Y. LANGELIER, R. SIMARD & C. BRAILOVSKY
Mechanism of actinomycin resistance in SV_{40}-transformed hamster cells 261

J. C. BAGSHAW & BERNICE H. BOND
Postnatal development of mouse liver: increasing RNA polymerase activity and orotic acid incorporation 269

CYNTHIA DOUGHTY & the late P. G. McDONALD
Hormonal control of sexual differentiation of the hypothalamus in the neonatal female rat 275

INGRID E. LUTZELER & G. M. MALACINSKI
Modulations if the electrophoretic spectrum of newly synthesized protein in early axolotl (*Ambystoma mexicanum*) development 287

S. M. HINSULL & D. BELLAMY
Development and involution of thymus grafts in rats with reference to age and sex 299

M. G. LEWIS, K. M. SHEIKH, P. AVIS, M. WHITEHEAD & C. VERA
The identification of foetal antigens in human bone marrow cells 307

Reviews:

L. G. LAJTHA & R. SCHOFIELD
On the problem of differentiation in haemopoiesis 313

Vol 2 no 6 December 1974

page

Original papers:

C. E. FORD, E. P. EVANS, M. D. BURTENSHAW, HILARY CLEGG, R. D. BARNES & MAUREEN TUFFREY
Marker chromosome analysis of tetraparental AKR←→CBA-T6 mouse chimaeras 321

J. M. ARNOLD
Intercellular bridges in somatic cells: cytoplasmic continuity of blastoderm cells of *Loligo pealei* 335

C. DELESCLUSE
Cyclic AMP-elevating agents inhibit proliferation of keratinizing guinea-pig epidermal cells 343

S.-S. YEN, S.-H. CHEN-YEN & R. L. KLEIN
Ontogenisis of Ca^{++} and Mg^{++} contents of embryonic chick heart 351

Preliminary reports:

R. W. HENDRIX & J. ZWAAN
Changes in the glycoprotein concentration of the extracellular matrix between lens and optic vesicle associated with early lens development 357

Models & hypotheses:

M. L. PALL
DNA replication and the stability of cell differentiation 363

K. N. PRASAD
Abnormal regulation of cyclic AMP phosphodiesterase: a hypothesis for the development of cancer of nerve cells 367

Reviews:

M. K. AGARWAL
Intercellular interactions in eukaryotic homeostasis 371
